

KMLObject

```
graph BT; LineStyle --> ColorStyle; ColorStyle --> SubStyle; SubStyle --> KMLObject;
```

The diagram illustrates a vertical hierarchy of four classes. At the bottom is 'LineStyle', followed by 'ColorStyle', then 'SubStyle', and finally 'KMLObject' at the top. Each class is contained within a rectangular box with a thick black border. The boxes are stacked vertically, and each lower box is connected to the box above it by a vertical arrow pointing upwards, indicating a relationship of inheritance or composition.
