

KMLObject

```
classDiagram
    Camera --> AbstractView
    AbstractView --> KMLObject
```

A UML class diagram showing a vertical hierarchy of three classes. At the bottom is the 'Camera' class, in the middle is the 'AbstractView' class, and at the top is the 'KMLObject' class. A vertical arrow points from 'Camera' up to 'AbstractView', and another vertical arrow points from 'AbstractView' up to 'KMLObject', indicating that 'Camera' inherits from 'AbstractView' and 'AbstractView' inherits from 'KMLObject'.
